

Sameh Shehata Abdelaziz

Data & BI Analyst | Microsoft Fabric Engineer | AI-Driven Insights Specialist

+20 127 476 6641 | samehshihata@gmail.com | [linkedin.com/in/sameh-abdelaziz](https://www.linkedin.com/in/sameh-abdelaziz) | samehshi.github.io/portfolio
Cairo, Egypt | Open to Remote & Relocation

PROFESSIONAL SUMMARY

Data & BI professional with 15+ years of experience across aviation, finance, retail, and non-profit sectors. Triple-certified in Microsoft Fabric (PL-300, DP-600, DP-700). Delivers Power BI dashboards, predictive ML models, and automated ETL pipelines — reducing processing time by 30%+ and improving client ROI by up to 20%. Skilled in Python, SQL, and cloud platforms; effective with both technical teams and executive stakeholders.

SKILLS

Business Intelligence: Power BI (PL-300), Tableau, Looker, IBM Cognos, Microsoft Fabric, DAX, Power Query, Data Modeling, KPI Dashboards, Report Design

Data Engineering: Microsoft Fabric (DP-700), ETL Pipeline Development, Dataflows Gen2, Lakehouse Architecture, Data Factory, SQL, Python (Pandas, NumPy), Google BigQuery, IBM Db2, Data Warehousing

Analytics & Machine Learning: Predictive Analytics, Classification, Regression, XGBoost, Random Forest, k-means Clustering, Time-Series Analysis, A/B Testing, Feature Engineering, Scikit-learn, Statistical Analysis

Cloud Platforms: Microsoft Azure, Microsoft Fabric (OneLake, Synapse Analytics), Google Cloud Platform (BigQuery, Cloud Data Analytics), IBM Cloud

Programming Languages: Python, SQL, R, DAX, M (Power Query)

AI & Automation: Microsoft Copilot Studio, Prompt Engineering, LLM-assisted Data Workflows, AI-driven Pipeline Automation

Data Management: Data Governance, Data Quality, Data Cleaning, EDA (Exploratory Data Analysis), Data Pipeline Optimization, ETL/ELT Processes

Soft Skills: Data Storytelling, Stakeholder Management, Cross-functional Collaboration, Problem Solving, Project Lifecycle Management, Client Consulting

WORK EXPERIENCE

Freelance Data & BI Analyst | Upwork — Independent Consulting | 2023 – Present

- Design and deliver end-to-end Power BI and Tableau solutions for clients across finance, retail, and healthcare — covering data modeling, DAX measure development, Power Query transformation, dashboard deployment, and user training.
- Build automated Python and SQL data pipelines that reduce manual reporting effort by 30%+, enabling clients to access real-time, reliable analytics without manual intervention.
- Develop customer segmentation, churn prediction, and demand-forecasting models that have collectively driven up to 20% improvement in marketing ROI and operational efficiency for SME clients.
- Manage the full project lifecycle end-to-end — from requirements gathering and solution design through delivery and iterative refinement — maintaining strong client satisfaction across diverse industries and time zones.

Data Services Officer — Aeronautical Navigation | NANSO (National Air Navigation Services Company) | Cairo, Egypt | 2009 – Present

- Analyse high-volume, safety-critical air navigation datasets to deliver actionable operational insights, directly supporting decision-making for aviation stakeholders in a strict regulatory environment (ICAO compliance).
- Identified and resolved systemic data and communication bottlenecks through root-cause analysis, implementing corrective protocols that reduced operational risk incidents by 15%.

- Optimise mission-critical data workflows using systems-level process analysis, improving throughput and data quality while maintaining full compliance with ICAO safety and data management standards.
- Collaborate with cross-functional teams spanning operations, engineering, and regulatory bodies to translate complex data findings into actionable improvements — adopted across the organisation.
- Manage and maintain structured databases for air traffic and navigation information, ensuring data integrity, availability, and security across 24/7 operational cycles.

APPLIED ANALYTICS PROJECTS

Client & Professional Work

- **Power BI Dashboard Suite (Upwork Clients):** Designed and deployed a portfolio of interactive Power BI dashboards for finance and retail clients, enabling executive teams to self-serve KPI monitoring. Integrated with live SQL and cloud data sources, replacing static Excel reporting.

Independent Research & Applied Modeling

- **Bankruptcy Risk Assessment (Financial Services):** Built an end-to-end ML pipeline using XGBoost and Random Forest to predict business insolvency risk, achieving 25% higher accuracy over baseline — enabling earlier intervention and reduced credit exposure.
- **Customer Segmentation (Retail):** Applied k-means clustering on transactional data to identify high-value customer segments; targeted campaigns generated a 15% uplift in email engagement and measurable retention gains.
- **Housing Price Prediction (Real Estate):** Processed 21,000+ property listings through a feature-engineered regression model, improving valuation accuracy by 18% — supporting more confident investment decisions.
- **Earthquake Damage Prediction (NGO / Humanitarian):** Developed a classification model with 80% accuracy to forecast infrastructure damage severity post-disaster, enabling an NGO to prioritize aid allocation and reduce response time.

CERTIFICATIONS

Certification	Issuer	Year
Fabric Data Engineer Associate (DP-700)	Microsoft	2026
Fabric Analytics Engineer Associate (DP-600)	Microsoft	2025 — Renewed
Power BI Data Analyst Associate (PL-300)	Microsoft	2024 — Renewed
Google Cloud Data Analytics Certificate	Google Cloud	2024
Google Business Intelligence Professional Cert.	Google / Coursera	2024
Google Advanced Data Analytics Professional Cert.	Google / Coursera	2024
Data Science Math Skills	Duke University	2024
Applied Data Science Labs	WorldQuant University	2024
Forward Program — Problem Solving & Leadership	McKinsey & Company	2024
IBM Data Analyst Professional Certificate	IBM / Coursera	2023
Google Data Analytics Professional Certificate	Google / Coursera	2023

EDUCATION

B.Sc. Chemistry & Microbiology · Ain Shams University, Cairo, Egypt · 2004 – 2008

Transitioned into data analytics through continuous professional development, earning 10+ industry certifications across BI, data engineering, ML, and cloud platforms.
